

WOODWINDS[®] SuperNatural[™] Shutters

By Comfortex Window Fashions

Better Than Wood. Better For Life.

2007 WCMA Award Winning Product - best new style concept in the shutter category.

Woodwinds SuperNatural Shutters reach above and beyond your composite shutter expectations. Not only does Woodwinds' astonishing durability set an industry standard; the revolutionary wood grain process is so amazing, so life-like, that you won't be able to tell a SuperNatural Shutter apart from its wood complement. You won't believe your eyes!

Where Innovation is Always in Fashion[™]

WOODWINDS[®] SuperNatural[™] Shutters

By Comfortex Window Fashions

SEE AND BELIEVE! THERE'S NO COMPARISON!

Go ahead. Compare our SuperNatural Shutters side by side with 100% wood. You'll be amazed by what you see.

GRAIN COMPARISON

The patent-pending SuperNatural color process creates the rich look of real wood grain. Subtle variations make these stained woodtones come alive with textural beauty.

100% WOOD SHUTTER

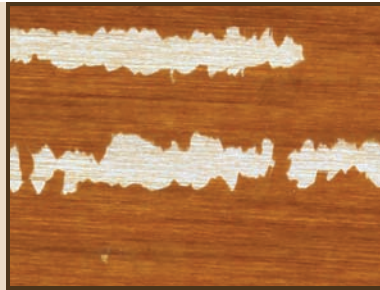

COMFORTEX SUPERNATURAL SHUTTER

STRENGTH COMPARISON

The resilient SuperNatural finish protects every panel and frame for uncompromising performance. The integrity of the surface is no longer at risk from everyday wear and tear. Scratches and scuffs, typical of 100% wood, are a thing of the past.

MOISTURE COMPARISON

Moisture is no match for the SuperNatural finish. Condensation simply beads up the louvers rather than soaking in and ultimately warping or cracking the material. Real wood shutters do not have this innovative safeguard.

LIMITED LIFETIME WARRANTY

Woodwinds SuperNatural Shutters are an industry first and are backed by a Limited Lifetime Warranty. There has never been a shutter like this before!

SuperNatural Shutters are better than wood. And better for life.

Better than
